Oil Pump

Oil Pump System for delivering a specified volume of oil
(example shown delivers 2.5L of gear oil).

Features:

- Internal battery powered system with charging socket
- Trolley mountable for portability
- Automatic mode for delivery of a specified volume of oil
- Suitable for use with different types and viscosities of oil (up to 2000 cSt)
- Manual pumping mode for top-up
- Hand held pendant controller
- Battery power LED -
 - Green - fully charged
 - Blue - charging
 - Red - low charge / fault
- Battery Level Meter

Based on delivery of 2.5 Litres of gear oil per gear box, the unit will provide over 100 gear box fills on 1 charge of the unit, with an individual cycle time of ~42 seconds for 2.5 Litres.

Benefits:

- Ensures consistent delivery of a specified volume of oil
- Minimises the manual effort required
- Battery operation means the unit can be mounted on a trolley and moved/used in different locations
