8ATWH CO 55mm A/F BI-HEX OPEN SPANNER HYDRAULIC WRENCH – TECHNICAL DATA

8ATWH CO 55mm A/F BI-HEX OPEN SPANNER HYDRAULIC WRENCH – TECHNICAL DATA

DESCRIPTION

The 8ATWH CO Open Spanner Hydraulic Torque Wrench is a direct fitting hydraulic driven power tool designed to accurately apply torque to tighten and remove threaded fasteners.

The wrench has an open female bi-hexagon designed to fit directly onto the nut or bolt head. This tool variant is ideal for use on applications with limited overhead access and close fastener centres or with fasteners having excessive thread protrusion.

The wrench incorporates a swivel coupler that can be rotated through a full 360° allowing hoses to be conveniently directed away from obstructions.

Torque is controlled by regulating the hydraulic pressure via a separate hydraulic power pack. Corresponding pressure settings and torques are determined using the graph provided.

The Open Bi-Hexagon Spanner is quickly detachable from the Hexagon Head Unit to allow different size Open Hexagon Spanners to be fitted.

The ATWH CO Open Spanner wrench must always be operated with the following:-

- Double Acting Hydraulic Power Pack capable of 10,000 psi (690 bar) with low pressure return
- Hydraulic Mineral Oil (None Synthetic, Grade 32 or equivalent)
- Hydraulic Hoses (Working Pressure 10,000 psi, 6mm Bore)

SPECIFICATION

Hexagon Size:	55mm (Female)
Torque Accuracy:	+/- 3%
Minimum Output Torque:	919 Nm (678 lbf.ft)
Maximum Output Torque:	T.B.C.
Maximum Working Pressure:	690 bar (10,000 psi)
Maximum Return Pressure:	50 bar (725 psi)
Total Weight (Including Reaction):	~10.0Kg (22.05 lbs)
Swivel Coupler Port Size:	1/4” NPT

ACCESSORIES AVAILABLE

The following accessories are available upon request and can be custom made to suit requirements. Please contact W. Christie (Industrial) Limited for more information:-

- Special Reaction Extensions
- Alternative Open Spanner sizes from 50mm A/F Bi-Hexagon to 90mm A/F Bi-Hexagon
- Alternative Closed Spanner sizes from 50mm A/F Bi-Hexagon to 90mm A/F Bi-Hexagon
- Alternative Ratchet Cassettes from 50mm A/F hexagon to 90mm A/F Hexagon
- Hexagon Reducing Adaptors (for use on smaller bolt sizes)

No statement or data within this literature is warranted or guaranteed to be accurate.
